**Boyd Martin is one of the best clinician I have ridden with in a long time. People who ride with him feel they and their horses were challenged mentally and physically without being overfaced. Your confidence reaches a new level. He demonstrates imagination in the exercises he teaches. He explains techniques for both stadium and cross country clearly and logically. Both my horses excelled during the clinic and I have incorporated many suggestions into my current riding. This is a clinic that you don't want to miss!**
